

New Boomerang bowl

The new owners of the manufacturer of Henselite Bowls have announced the arrival of the Boomerang Bowl. This bowl will suit the Skip who always bemoans the fact that he cannot draw a shot with all the short bowls his team are delivering. The Boomerang bowl has a very wide arc and sharp turn back to the head enabling the Skip to draw the shot from behind the middle. A best seller for sure.

Umpire's Corner

Question (LVII)

What control does the umpire have over spectators?

Answer

The umpire must make sure that spectators stay outside the boundaries of the green and that they do not advise the players in any way. (Law 45)

NB Coaches and team managers CAN advise provided they have made the umpire aware of their presence BEFORE the game. One person ONLY can advise at any one time and MUST do so from the bank and ONLY when their player has possession. (Law 44)

Question (LVIII)

A bowl in its original course comes into contact with several bowls in the head before coming into contact with one of the player's feet. What should happen?

From the Editor's desk

To give you plenty of time to get to the library to get a copy of War and Peace, I announce that next week 8 April you will have to read your book as there will be no Hot Line to while away an hour or two. Yours truly is off to Martinborough for a wedding then onto Hamilton via Napier, Taupo, and Tauranga for a 100th birthday. In case you are wondering neither of these momentous occasions are mine. See you again on the 15 April.

Happy Easter everyone.
